## SUMMARY

Hardworking and reliable IT student with strong ability in Webdev and Cybersecurity. Offering cloud, network and web security. Highly organized, proactive and punctual with team-oriented mentality.

## SKILLS AND STRENGTHS

- **Python (DJANGO)** - One of the biggest backend frameworks in the market used by Instagram, Pinterest, Disqus, etc.
- **Dart (Flutter)** - A new framework made by Google to design mobile apps.
- **Linux and Windows Shell**
- **Network Technologies** - Router, Switches, Wireshark.
- **Pestesting** - Reconnaissance and discovery of vulnerabilities in the system
- **Cloud** - Google Cloud, Azure, AWS, Linode.

## PROFESSIONAL EXPERIENCE

### **Toronto Police Headquarters (CO-OP) , Toronto, ON (Canada)**

*Records Management, Feb 2018 – Jun 2018*

- Innovated the delivery of the mail system throughout GTA by organizing and rearranging the way it was handled within the HQ therefore decreasing the wait time and delivery.

### **Mormaii Bikes Ltda, Blumenau, SC (Brazil)**

*Manager Assistant, June 2015 – August 2016*

- Have created and organized databases of clients from Brazil wide which enhanced the way in which clients' data were handled and delivered making it more readable and presentable to sellers.
- Implemented an ergonomic campaign within my company, which provided more comfort and satisfaction to employees therefore making them more efficient and productive.

## EDUCATION

### **Seneca College, Toronto, ON (Canada)**

*Computer Systems Technician , Jan 2021 - Mar 2023*

### **Brebeuf College High School, Toronto, ON (Canada)**
